O Gauge Hornby 4-4-2 No 3E Nord Tender Loco (Electric 20v)– re-liveried as Canadian Pacific No 2800 by Simon Greenwood

- Improve ripples in: LH and RH Running Plate Valance, RH Cab Side, Front Running plate top above buffer
- Additions/amendments: Remove Smoke Deflectors from Smoke Box, Remove Front Buffers and fill in holes. Fabricate and affix a Cowcatcher made from tinplate in the pattern of that on the original Hornby Canadian Pacific. An appropriate Smoke Box Door was modified, and a new bulb holder made to the same shape as the original. A Bell was turned for the Fire Box Top.

- Replace Coupling/Connecting Rods( as the originals were rusty).Service, clean and oil Electric motor and mechanism
- Commission Wessex Transfers to make "CANADIAN PACIFIC" "2800" in the same font, size and style as used by Hornby
- Paint and Line in black in the style and finish of Hornby and affix detailing and Hornby Trademark Transfers
